Contents

NUMBER 1, MARCH 1991

SHEILA A. GRANT and G.T. BARTHRAM. The effects of contrasting cutting regimes on the components of clover and grass growth in microswards 1

P.D. PENNING, A.J. PARSONS, R.J. ORR and T.T. TREACHER. Intake and behaviour responses by sheep to changes in sward characteristics under continuous stocking 15

A.J. BURLISON, J. HODGSON and A.W. ILLIUS. Sward canopy structure and the bite dimensions and bite weight of grazing sheep 29

D.A. DAVIES, M. FOTHERGILL and D. JONES. Assessment of contrasting perennial ryegrasses, with and without white clover, under continuous sheep stocking in the uplands. 3. Herbage production, quality and intake 39

ROSEMARY R. COLLINS, MARGARET J. GLENDINING and I. RHODES. The relationships between stolon characteristics, winter survival and annual yields in white clover *(Trifolium repens* L.) 51

J.L. JACOBS and A.B. McALLAN. Enzymes as silage additives. 1. Silage quality, digestion, digestibility and performance in growing cattle 63

S. JAAKKOLA, P. HUHTANEN and K. HISSA. The effect of cell wall degrading enzymes or formic acid on fermentation quality and on digestion of grass silage by cattle 75

J.F. AYRES. Sources of error with *in vitro* digestibility assay of pasture feeds 89

C. STIMSON, R.C. KELLAWAY, R.J. TASSELL and R.L. ISON. Prediction of the nutrient content of botanical fractions from annual legumes by near-infrared reflectance spectroscopy 99

S.F. McGUINNESS, G.R. PEARCE, M.J. DALLING and R.J. SIMPSON. The effect of a chemical hybridizing agent on the morphology and chemical composition of annual ryegrass (Research Note) 107

NUMBER 2, JUNE 1991

G.M. BARKER. Slug density—seedling establishment relationships in a pasture renovated by direct drilling 113

G.C. LEWIS, R. COOK and A. VAN DER ENDE. Effect of agrochemicals applied at sowing on seedling emergence and herbage yield of perennial ryegrass and white clover 121

R.M. PAYNTER and P.M.R. DAMPNEY. The effect of rate and timing of phosphate fertilizer on the yield and phosphate offtake of grass grown for silage at moderate to high levels of soil phosphorus 131

J. FRAME. Herbage production and quality of a range of secondary grass species at five rates of fertilizer nitrogen application 139

L. JONES. Laboratory studies on the effect of potassium carbonate solution on the drying of cut forage 153

D.P. BELESKY, S.R. WILKINSON and J.A. STUEDEMANN. The influence of nitrogen fertilizer and *Acremonium coenophialum* on the soluble carbohydrate content of grazed and non-grazed *Festuca arundinacea* 159

A.L. HART and W.A. COLLIER. Inorganic phosphorus and DNA concentrations in the leaf tissue of some forage species 167

S.A. GRANT, L. TORVELL, E.M. SIM and J. SMALL. The effect of stolon burial and defoliation early in the growing season on white clover performance 173

S.M. SMITH, H.E. SCHREIER and S. BROWN. Spatial analysis of forage parameters using geographic information system and image-analysis techniques 183

J.L. JACOBS, J.E. COOK and A.B. McALLAN. Enzymes as silage additives. 2. The effect of grass dry matter content on silage quality and performance in sheep 191

N. SWEET, J.J.J. WILTSHIRE and C.K. BAKER. New descriptive scale for early reproductive development in *Lolium perenne* L. 201

BOOK REVIEW 207

NUMBER 3, SEPTEMBER 1991

J.H. MARTIN, C.J.C. PHILLIPS and M.B. ALCOCK. Supplementary forage for grazing sheep. 1. Effects on lactating ewes and lambs 209

J.H. MARTIN, C.J.C. PHILLIPS and M.B. ALCOCK. Supplementary forage for grazing sheep. 2. Effects on weaned lambs 217

H. MENZI, H. BLUM and J. NÖSBERGER. Relationship between climatic factors and the dry matter production of swards of different composition at two altitudes 223

F.N.J. LONG, S.J. KENNEDY and H.I. GRACEY. Effect of fertilizer nitrogen rate and timing on herbage production and nitrogen use efficiency for first-cut silage 231

T.G. COMMON, E.A. HUNTER, M.J.S. FLOATE, J. EADIE and J. HODGSON. The long-term effects of a range of pasture treatments applied to three semi-natural hill grassland communities. 1. Pasture production and botanical composition 239

T.G. COMMON, E.A. HUNTER, J. EADIE, M.J.S. FLOATE and J. HODGSON. The long-term effects of a range of pasture treatments applied to three semi-natural hill grassland communities. 2. Animal performance 253

J.R.B. TALLOWIN, C.M. TYSON and S.K.E. BROOKMAN. Differences in lamina wettability in some permanent pasture grass species and two *Lolium perenne* cultivars 265

R.J. SKINNER and J.W. ALLEN. Response to late season nitrogen of upland swards in Wales 269

N.J. HUTCHINGS. Spatial heterogeneity and other sources of variance in sward height as measured by the sonic and HFRO sward sticks 277

R.E. MUCK, R.E. PITT and R.Y. LEIBENSPERGER. A model of aerobic fungal growth in silage. 1. Microbial characteristics 283

R.E. PITT, R.E. MUCK and N.B. PICKERING. A model of aerobic fungal growth in silage. 2. Aerobic stability 301

D.E. HUME. Primary growth and quality characteristics of *Bromus willdenowii* and *Lolium multiflorum* 313

C.P. CHIY and C.J.C. PHILLIPS. The effects of sodium chloride application to pasture, or its direct supplementation, on dairy cow production and grazing preference 325

C.J.C. PHILLIPS, J.K. MARGERISON, S. AZAZI, A.G. CHAMBERLAIN and H. OMED. The effect of adding surface water to herbage on its digestion by ruminants (Research Note) 333

M.J. GIBB. Differences in the vertical distribution of plant material within swards continuously stocked with cattle (Research Note) 339

NUMBER 4, DECEMBER 1991

R.C. BINNIE and D.M.B. CHESTNUTT. Effect of regrowth interval on the productivity of swards defoliated by cutting and grazing 343

R.G. JAINDL, S.H. SHARROW and H.H. MEYER. Effect of winter grazing date on yield components of *Lolium perenne* (L.)/*Trifolium repens* (L.) hill pasture 351

A.L. RAURAMAA, J.J. SETÄLÄ and A.E.A. TOMMILA. The effect of glucose oxidase on the preservation of grass silage 359

S. SUGIYAMA and H. NAKASHIMA. Effects of cultivars of tall fescue (*Festuca arundinacea* Schreb.) on the botanical composition of mixed swards 365

G. MOSELEY and D.H. BAKER. The efficacy of a high magnesium grass cultivar in controlling hypomagnesaemia in grazing animals 375

E. CHARMLEY and D.M. VEIRA. The effect of heat-treatment and gamma radiation on the composition of unwilted and wilted lucerne silages 381

H. THOMAS and C. EVANS. Growth and water relations of simulated swards of *Lolium perenne* L. selection lines with contrasting leaf osmotic potentials 391

G.C. LEWIS. Interactions between pesticide treatment, cutting frequency and rate of N fertilizer on white clover grown in mixture with perennial ryegrass 399

J.T. DOUGLAS and C.E. CRAWFORD. Wheel-induced soil compaction effects on ryegrass production and nitrogen uptake 405

J. FRAME and M.W. MORRISON. Herbage productivity of prairie grass, reed canary-grass and phalaris 417

S. TAMMINGA, R. KETELAAR and A.M. VAN VUUREN. Degradation of nitrogenous compounds in conserved forages in the rumen of dairy cows 427

R.G. GUNN, W.F. SMITH, R.D.M. AGNEW, A.D.M. SMITH and D.A. SIM. Net production of herbage from a continuously stocked *Lolium perenne*-dominated sward in late autumn (Research Note) 437

H.J. HUIZING, W. VAN DER MOLEN, W. KLOEK and A.P.M. DEN NIJS. Detection of lolines in endophyte-containing meadow fescue in The Netherlands and the effect of elevated temperature on induction of lolines in endophyte-infected perennial ryegrass (Research Note) 441
